

§ 2806.38

each facility is benefitting economically from having the television broadcast equipment located there, even though the combined equipment is supporting only one single end use.

§ 2806.38 Can I combine multiple grants or leases for facilities located on one site into a single grant or lease?

If you hold authorizations for two or more facilities on the same site, you can combine all those uses under one grant or lease, with BLM's approval. The highest value use in all the combined facilities determines the base rent. BLM then charges for each remaining use in the combined facilities at 25 percent of the rent from the rent schedule. These uses include those uses we previously calculated as base rents when BLM authorized each of the facilities on an individual basis.

§ 2806.39 How will BLM calculate rent for a lease for a facility manager's use?

(a) BLM will follow the provisions in § 2806.31 of this subpart to calculate rent for a lease involving a facility manager's use. However, we include the rent from the rent schedule for a facility manager's use in the rental calculation only if the value of that use is equal to or greater than the value of any other use in the facility. BLM excludes the facility manager's use in the 25 percent calculation (see § 2806.31(a) of this subpart) when its value does not exceed the highest value in the facility.

(b) If you are a facility owner and you terminate your use within the facility, but want to retain the lease for other purposes, BLM will continue to charge you for your authorized use until BLM amends the lease to change your use to facility manager or to some other communication use.

§ 2806.40 How will BLM calculate rent for a grant or lease for ancillary communication uses associated with communication uses on the rent schedule?

If the ancillary communication equipment is used solely in direct support of the primary use (see the definition of communication use rent schedule in § 2801.5 of this part), BLM will

43 CFR Ch. II (10–1–06 Edition)

calculate and charge rent only for the primary use.

§ 2806.41 How will BLM calculate rent for communication facilities ancillary to a linear grant or other use authorization?

When a communication facility is ancillary to, and authorized by BLM under, a grant for a linear use, or some other type of use authorization (e.g., a mineral lease or sundry notice), BLM will determine the rent using the linear rent schedule (see § 2806.20 of this subpart) or rent scheme associated with the other authorization, and not the communication use rent schedule.

§ 2806.42 How will BLM calculate rent for a grant or lease authorizing a communication use within a federally-owned communication facility?

(a) If you are an occupant of a federally-owned communication facility, you must have your own grant or lease and pay rent in accordance with these regulations.

(b) If a Federal agency holds a grant or lease and agrees to operate the facility as a facility owner under § 2806.31 of this subpart, occupants do not need a separate BLM grant or lease and BLM will calculate and charge rent to the Federal facility owner under §§ 2806.30 through 2806.44 of this subpart.

§ 2806.43 How does BLM calculate rent for passive reflectors and local exchange networks?

(a) BLM calculates rent for passive reflectors and local exchange networks by using the same rent schedules for passive reflectors and local exchange networks as the Forest Service uses for the region in which the facilities are located. You may obtain the pertinent schedules from the Forest Service or from any BLM state or field office in the region in question. For passive reflectors and local exchange networks not covered by a Forest Service regional schedule, BLM uses the provisions in § 2806.50 of this subpart to determine rent. See Forest Service regulations at 36 CFR chapter II.

(b) For the purposes of this subpart, the term:

(1) *Passive reflector* includes various types of nonpowered reflector devices
